**OSHA General Safety Programs  
Personal Protective Equipment  
Satisfies 29 CFR 1910.132**

<b>Applicability:</b>	Applies to employers with regard to the provision of personal protective equipment to employees to protect them against hazards of processes or environment, chemical hazards, radiological hazards, or mechanical irritants.
<b>Prerequisites:</b>	None
<b>Frequency and Duration:</b>	This training program requires 2 hours to complete.

**Purpose and Overview:**

Safety Training Services, Inc. will conduct a training program designed to assist employers in complying with the revised OSHA Personal Protective Equipment (PPE) Standard (29 CFR 1910.132). The program is designed to give employees an overview of the basic personal protective equipment requirements associated with head, eye/face, hand, and foot protection. Each selected employee will be trained to:

- Determine when personal protective equipment is necessary.
- Determine what personal protective equipment is necessary.
- Know how to properly don, doff, adjust, and wear personal protective equipment.
- Know the limitations of personal protective equipment.
- Know the proper care, maintenance, useful life and disposal of the personal protective equipment.

**Training Materials: Those attending this training program will receive a training manual and a certificate of completion at the conclusion of the session.**
